The Jarvis Model BN-003 and BN-100 pneumatically operated balancers for correctly balancing a wide variety of tools.

JARVIS

- BN-003 ideal for operating in limited spaces.
- BN-100's corrosion resistant aluminum cylinder provides durability and long service life.
- Achieves true balance over a tool's entire vertical travel length.
- Correctly balances any tool weighing between 33 and 250 lbs (15 and 113 kg).
- No lubrication required.
- Few moving parts for low maintenance.
- Plastic coated stainless steel cable.
- Reduced operator fatigue.

DEPENDABLE - DURABLE - RUGGED
